

**Ablative Resurfacing**  
(CO<sub>2</sub> & 2.94 Erb:YAG)  
10-200 microns

**Superficial Fractional Ablative Resurfacing**  
(CO<sub>2</sub> & 2.94 Erb:YAG)  
10-70 microns

**Non-Ablative Fractional Resurfacing**  
600-1000 microns

**Ablative Fractional Resurfacing**  
600-1000 microns

*Unlike Fraxel, the Smartxide DOT actually removes the heated column of skin tissue (ablation) and provides more substantial wrinkle removal and deep skin tightening.*
